

VIEL MEHR ALS NUR EIN GUTER JOB.

The University Hospital Basel is one of the leading hospitals in Switzerland. Due to our intensive collaboration with the University of Basel and the proximity to several major international life science companies, we are optimally positioned within an innovative knowledge transfer network that operates at the highest level of research, teaching and patient care. With approximately 6'700 employees from 86 countries, we are fully committed to our work and meet the highest professional standards. Join our team – Because our jobs offer more than elsewhere.

Cochrane Insurance Medicine (CIM) is a Cochrane field focused on knowledge translation to get research findings to the point of decision making (insuremed.cochrane.org). Insurance medicine provides insurers with health-related recommendations. CIM is integrated in the academic competence center for evidence-based insurance medicine, EbIM, with its focus on clinical research with relevance for care. Located at the Department of Clinical Research, EbIM collaborates on a local, national and international level.

Starting from March 1st 2018 or by arrangement, we offer the following position as

Researcher/Coordinator 50-70%

Your responsibilities:

- Participating in writing systematic reviews and in research on knowledge translation
- Translating and communicating research results in lay language
- Participating in training activities on systematic reviews
- Supporting the board of directors of CIM and taking responsibility for the website
- Ensuring communication within CIM, within Cochrane and to the insurance medicine community

Your qualifications:

- Training in a medical or allied discipline (physician, rehabilitation), level Master degree including some formal training in research methodology
- Previous experience with Cochrane; experience in writing systematic reviews
- Proficiency in German and English; French would be an asset
- Very good writing skills and fluent use of electronic communication tools
- Willingness to travel internationally and to learn about insurance medicine and health systems
- 2 to 3 years of professional experience (compulsory)

What we offer:

- An exciting position in a dynamic, international team
- A multifaceted and challenging task in an academic environment
- Exciting training and development opportunities
- Attractive employment conditions
- A family friendly personnel policy
- A centrally located campus with good transport facilities
